David,
Thank you for the video.
It is a very effective tool.
I want you to know that Grandover Pointe thought Snowscapes did a good job.
There were no complaints.
Stay well.

Good morning Nancy,

I understand Dave H has crews scheduled shortly to revisit previously blocked driveways and also the city walk. In the meantime, I wanted to provide you with video inspection from last evening of the site so you can see first-hand the job that was performed. After you see the video, I am confident you will agree the job was performed at a very high level. The areas that will require service are where the crews were blocked by parked cars. Otherwise, the site was clear to blacktop.

When you watch the video, please watch with a smile as my deliriously tired self tends to narrate and possibly ramble!

27 Mulford was cleared with the exception of the area where the car in driveway with license plate YBINSANE2 was parked. Image and video included for your records.

Below is the link to the video and photo. I think we can delete the sound from the video later in the week!
